LOW INCOME ASSISTANCE PROGRAMS MONTHLY REPORT

LIEE EXECUTIVE SUMMARY

Low Income Energy Efficiency Program Overview

Provide a summary of the LIEE Program elements as approved in Decision 08-11-031:

Program Summary for Month							
	Authorized / Planning	Year-to-Date					
2010	Assumptions	Actual	%				
Budget	\$61,561,081	\$33,850,754	55%				
Homes Treated	104,500	63,298	61%				
kWh Saved	29,743,228	18,082,461	61%				
kW Demand Reduced	9,676	4,766	49%				
Therms Saved	N/A	N/A	N/A				

Whole Neighborhood Approach Evaluation

Provide a summary of the geographic and customer segmentation strategy employed, (i.e. tools and analysis used to segment "neighborhoods," how neighborhoods are segmented and how this information is communicated to the contractor/CBO).

From July 1, 2010 through July 3, 2010, SCE and a local service provider, Energy Save, partnered with Northgate Markets in West Covina. A booth was set up and representatives informed customers about the benefits of LIEE and CARE programs. The strategy targeted customers as they prepared for the Fourth of July weekend while shopping at their local supermarket for groceries. Over 80 appointments were made at the event. As a result, future opportunities with Northgate Markets will allow SCE to launch other similar events at the other Northgate Markets throughout SCE's service territory.

Since June 17, 2010, LIEE, CARE, and SCE's Payment Services launched a summer pilot program partnering with select local Authorized Payment Agencies (APA) which offers customers the option of paying their bills in person. SCE representatives are being rotated in high traffic APAs to promote and enroll customers for income qualified programs offered by SCE. In the month of July, over 570 leads were created for LIEE. The pilot will continue throughout the month of August and conclude on August 27, 2010.

Throughout the month of July 2010, SCE continued to promote income qualified programs and other SCE programs at community events within SCE's service territory. Over 7 community events were held within the cities of Wrightwood, Los Alamitos, El Segundo, Commerce, Visalia, Lindsay, and Cypress where over 780 customers interacted with SCE.

LIEE Customer Outreach and Enrollment Update

<u>Provide a summary of the LIEE Program outreach and enrollment strategies deployed this month.</u>

During the month of July 2010, LIEE has been working with SCE's Corporate Communication Department to develop and create an educational video describing the EMA program. The video will explain the program and the enrollment process. The purpose and strategy behind the video is to educate and inform customers about the program. It will also incorporate CARE messaging and information for customers to contact SCE via phone or web. SCE plans to deploy the video on SCE.com, distribute it among the various community-based organizations, and showcase it during various outreach events.

From July 24, 2010 through July 31, 2010, SCE targeted over 60,000 CARE customers utilizing automated outbound calls. The campaign identified those customers who may be eligible to receive LIEE services throughout the Los Angeles and Orange counties. The automated outbound calls asked customers various questions regarding their household size and current income. The campaign successfully produced over 4,000 eligible response leads.

SCE continues to utilize an outbound calling effort that targets customers who have been previously cancelled during the enrollment process for various reasons. The intent of this ongoing effort is to continue to communicate with all possible customers who previously expressed interest in the EMA program and potentially reinstate those leads. Over 7,800 leads have been reinstated and referred out to EMA program agencies through the outbound calling effort since August 2009.

Leveraging Success Evaluation, Including CSD

Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

For the past several years, SCE has provided refrigerators to contractors at no cost to the LIHEAP program for installation through the LIHEAP program. SCE believes this approach will enable contractors to utilize measures and services from both the LIHEAP and EMA programs to better serve its customers. SCE continues to work with the Department of Community Services Development, service contractors, and the Commission in efforts to successfully leverage EMA and LIHEAP services.

Workforce Education & Training

Please summarize efforts to improve and expand LIEE workforce
education and training. Describe steps taken to hire and
train low income workers and how such efforts differ from
prior program years.

In Decision 07-12-051, the Commission stated that "(t)he LIEE portion of the statewide strategic plan should include specific training strategies for reaching disadvantaged communities." SCE's contractors, and particularly community-based organizations (CBOs), are situated in low-income and disadvantaged communities and provide jobs within these communities. Currently, these organizations provide over 1,100 jobs that support SCE's LIEE Program, including executive, clerical and other ancillary positions.

During the 2010 Program Year, SCE has facilitated 12 Home Assessment Training workshops, which provide training to agency outreach staff on the policies and procedures related to home assessment. The two-day training workshop includes comprehensive instruction on income documentation, customer and measure eligibility, and customer service. As a result of the Home Assessment Training workshops, 276 new jobs for assessors have been created to support SCE's LIEE program.

Outreach

<u>Discuss utility outreach activities and those undertaken by third</u> parties on the utility's behalf.

SCE continues to include a CARE enrollment application in the Welcome Kit that is provided to residents requesting new service or transfers of service. There have been 15,702 CARE customers enrolled as of July 31, 2010.

In March 2010, SCE sent out approximately 280,000 bilingual direct mailers containing a CARE enrollment application targeted to non-CARE customers.

As of July 31, 2010, 12,567 CARE enrollment applications were disseminated and resulted in 9,082 new enrollments and 1,149 recertifications.

On April 21, 2010 SCE started an energy advisor pilot. For three months, 12 specialists within SCE's call center offered two of four designated programs, (CARE, LIEE and two EE programs) to SCE customers at the end of every call. One of the programs promoted was the CARE program. SCE's customer service representatives could qualify and enroll customers directly in the CARE Program over the phone. The pilot program concluded on July 18, 2010. As of July 18, 2010, 1,337 customers were enrolled as a result of this effort.

Additionally, in June 2010, SCE included the CARE enrollment application in non-CARE customers' bills as part of the annual CARE solicitation. As a result of this effort, 17,027 applications were received which resulted in 12,863 new enrollments and 2,184 recertifications.

CARE and FERA outreach efforts and communications to SCE's in-language and under-penetrated areas continue to be a priority. SCE's CARE and FERA programs partner with internal departments such as Equal Opportunity, Local Public Affairs, Consumer Affairs, Customer Experience Management, Corporate Communications Community Involvement, Speakers Bureau, Business Solutions, the Mobile Energy Unit, employee volunteer-based affinity groups, and external organizations such as the Long Beach Housing Authority, the City of Long Beach's Neighborhood Services Bureau, as well as various chambers, foundations, faith-based and community-based organizations in outreach activities to target SCE's hard-to-reach customer base.

During July 2010, SCE's CARE and FERA programs had a presence at 33 outreach events through these partnerships wherein thousands of CARE applications were distributed to potentially eligible customer populations throughout SCE's service area (see table below). At many of these events, eligible customers had the opportunity to enroll or recertify for CARE via the real-time online enrollment application via www.sce.com and learn about the programs directly from a CARE/FERA subject matter expert. Such events provide SCE with the opportunity to uphold a presence in the community, continue to educate the public about SCE program offerings, and enroll eligible customers. Upholding this presence in the community is hugely important as the economic climate continues to impact SCE's customers while creating a newly eligible customer base.

On July 14, 2010, the CARE program participated in the Asian American & Pacific Islander "Helping Our Communities Succeed" conference for the San Bernardino Asian American community. The objective of the conference was to provide a platform for critical information sharing on sector-specific strategies to meet the needs of a customer base shared between SCE, the Asian American community, and nonprofit organizations and to create alliances between these organizations and SCE. SCE's CARE program

was able to serve as the platform to accomplish the objective by sharing information regarding the CARE, FERA and EMA programs along with potential contracting opportunities that may exist for these organizations through the Capitation Fee Project. As a result of this collaboration, SCE anticipates recruiting new agencies in the Capitation Fee Project.

On July 30, 2010, the CARE program participated in an event called ENLACES "Helping Our Communities Succeed" which targeted the Latino community in Visalia. The objectives of this conference were identical to those of the "Helping Our Communities Succeed" conference held on July 14, 2010. SCE's CARE program was able to facilitate these objectives by sharing the CARE, FERA and EMA programs along with potential contracting opportunities that may exist for these organizations through the Capitation Fee Project. As a result of this collaboration, SCE anticipates recruiting additional agencies into the Capitation Fee Project.

Beginning July 12, 2010, SCE's Home Energy Efficiency Survey (HEES) launched a new pilot where at the end of every survey, the customer is informed about the CARE Program and referred to SCE's website to obtain more information.

In June 2010, SCE launched the Authorized Payment Agency Summer Intern Partnership in which summer interns used the online process to enroll eligible customers in the CARE program through SCE's authorized payment agencies. As a result of this pilot, a total of 249 customers were enrolled in the CARE program.

The CARE/FERA Capitation Fee Project team is continuing its efforts to re-engage existing Capitation partners while strategically registering additional contractors to overcome enrollment barriers such as language, cultural, and special needs as a means of enrolling the hardest to reach customers. Due to these efforts, the Capitation Fee Project continues to show increased enrollments from agencies that had been previously inactive.

CARE/FERA management is also working with agencies to develop creative outreach approaches. Capitation agencies are being provided information and support to pursue alternative outreach activities that leverage their existing business strengths. These activities include partnering with businesses and organizations in key locations, developing public forums in which to conduct outreach, and conducting outreach in conjunction with community events that have a high probability of attracting newly eligible customer populations.

Current campaign strategies and efforts include the following:

- Leverage sponsored community events to reach potential eligible populations for CARE or FERA enrollment. These events include food distributions and cultural celebrations:
- Partner with SCE personnel to leverage existing SCE partnerships with faith based organizations (FBOs), CBOs and local governments;

- Partner with public entities to leverage existing relationships with businesses, FBOs and CBOs to reach eligible customers through existing municipal channels; and
- Leverage existing channels to develop creative approaches for contractors to conduct CARE/FERA outreach, including food and clothing distribution events, employment information workshops, farmers' markets, faith and community based publications, school events, and community fairs.

<u>Describe the efforts taken to reach and coordinate the CARE</u>
<u>program with other related low income programs to reach</u>
eliqible customers.

SCE also enrolls new CARE customers through the Energy Assistance Fund program, a program which provides utility payment assistance through voluntary customer and employee donations.

The CARE program is coordinated with other low income programs such as LIEE and LIHEAP. Each month LIEE measure recipients are automatically enrolled in CARE, and LIHEAP payment recipients are automatically enrolled in CARE quarterly. In the month of July 2010, 422 LIEE measure recipients were enrolled in CARE. In July 2010, 1,152 customers who received a payment through LIHEAP were enrolled in CARE.

The CARE Program continuously integrates its efforts and messaging with the EMA program at all outreach events, communications, and marketing campaigns.

Recertification Complaints

SCE received no recertification complaints in July 2010.

^{20 [1]} Enrollments via data sharing between the IOUs.

to |z| Enrollments via data sharing between departments and/or programs within the utility. Includes HEAP payment data file from Accounts Payable Dept.

^{22 [3]} Enrollments via data sharing with programs outside the IOU that serve low-income customers.

^[4] One-E-App is a pilot program set up by The Center to Promote Healthcare Access (the Center) and PG&E. The pilot will occur within two PG&E counties and looks to implement a strategy of automatic enrollment for low-income customers into the CARE program based on the customer's application or reapplication for related low income health and social welfare services (e.g. Medi-CAL, Healthy etc.,) The goal is to develop another means by which low income families can be introduced into the CARE program and depending on the success of the pilot to other counties within PG&E's territory as well as the other IOUs.

^{24 [5]} Not including Recertification.

^{25 [6]} Recertification results are tied to the month initiated. Therefore, recertification results may be pending due to the time permitted for a participant to respond.

^[1] All capitation contractors with current contracts are listed regardless of whether they have signed up customers or submitted invoices this year.

Numbers reflect customers that have been placed on the rate YTD. Capitation payments may lag by a month or more depending on when SCE is invoiced by the contractors. Some January capitation expenditures are for customers who were enrolled in 2009.
